

Jericho Walls Block

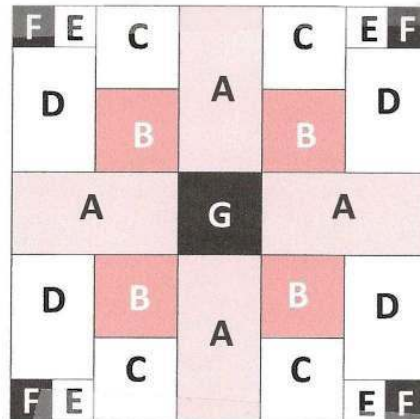

A and B should be in the same color family. Light and dark.

C, D and E select a light fabric

F should be a dark fabric

G can be the same color as F or the darkest color family for A and B.

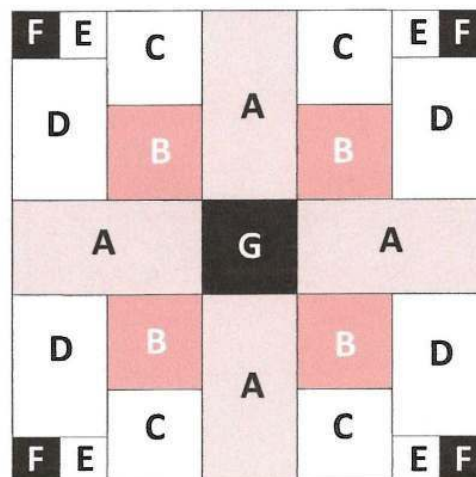

This block is 10" finished, so your block should be 10.5"x 10.5".

Cutting Requirements:

For EACH Block:

10" fin. size (10-1/2" unfin.)	
A:	Cut (4) 2-1/2" x 4-1/2" pcs.
B:	Cut (4) 2-1/2" x 2-1/2" pcs.
C:	Cut (4) 2-1/2" x 2-1/2" pcs.
D:	Cut (4) 2-1/2" x 3-1/2" pcs.
E:	Cut (1) 1-1/2" x 6-1/2" pc.
F:	Cut (1) 1-1/2" x 6-1/2" pc.
G:	Cut (1) 2-1/2" x 2-1/2" pc.

Block Assembly:

Step 1: Strip Cutting for E and F: for each block

E:	Cut (1) strip 1-1/2" wide x 6-1/2"
F:	Cut (1) strip 1-1/2" wide x 6-1/2"

E: 

F: 

- Join (1) E strip to (1) F strip together along their length. Press to the **DARKER** fabric.
- Now trim to tidy the width of EACH sewn strip set as instructed below. This will tidy the width and ensure they are perfect. This sewn strip set should measure 2-1/2" wide x 6-1/2".

Important: Trim to tidy the width of the sewn strips by placing the ruler along sewn seam measuring to raw edge. Use the cut width less 1/4" (for sewn seam) and trim to tidy along each raw edge. Each fabric strip should measure 1-1/4" wide from seam to raw edge.

- Yes, this strip set will be longer than needed but that is important for straightening. Now subcut each strip set into 1-1/2" sections by aligning ruler markings to the horizontal seam to keep cuts straight (at 90-degrees) and carefully cut (4) sections for one *Jericho Walls* block.

Each strip set will make (4) subcut units = enough for 1 block

Step 2: Making the Block

1. Referring to the block diagram below, carefully lay out all the pieces for the *Jericho Walls* block.
2. Check the position of each of the units. Make sure all units are positioned correctly – they can be tricky and who wants to ‘reverse sew’?
3. Using a 1/4" seam allowance, begin joining to make the units as shown that will form the horizontal rows. Press seams as indicated by the red arrows. Now join the rows together nesting seams to form the block.
4. Trim to tidy the edges if necessary. This *Jericho Walls* block should measure: 10-1/2" x 10-1/2" unfin.

5. Repeat the above steps to make each *Jericho Walls* block, working with colour and its value to create a variety of beautiful blocks to be assembled into the layout of your choice.
