

Color Stories Workshop Supply List

The instructor will provide a selection of **colored paper and small cuts of fabric** appropriate for the exercises. Students are encouraged to bring their own supply of colored paper and fabric if they would like more options to work with.*

Students will supply:

- **Solid fabrics:** Bring a small variety of fat quarters and/or fat eighths. You will not need large amounts of fabric, as we will not be sewing.
 - A variety of **light, medium, and dark values**
 - A range of “**brights**” and “**dulls**” — brights are clear, intense, highly saturated colors; dulls include pastels, dusty, muted, and grungy-type hues
 - Some **neutrals**, such as black, gray, brown, white, and off-white
 - If you don’t have a stash of solids, consider swapping fabrics with friends or using thrifted fabric to create a variety of colors and values.
- **Glue stick**
- **Paper and cloth scissors**
- **8.5" × 11" paper:** This will be used as the foundation for your designs. Copy paper works fine.
- **Colored paper (optional):** Bring your own if you would like additional colors or a wider range of choices.
- **Portable design wall (optional):** For example, a 30" × 20" art board covered with batting.

***Note:** To help keep costs down and minimize supply purchases, please consider bringing a few extra fabric and paper selections to share with the group. Let’s crowdsource our color options!
